Here are the instructions to use the "VOLTAGE FORMS" presets for Arturia Microfreak.

### 1 CONTENT OF THE ARCHIVE

- Readme.pdf : current text file.
- Microfreak\_Voltage Forms.mfprojz : Microfreak project to transfer with the Arturia MIDI Control Center

### 2 HOW TO USE

#### 2.1 Importing the "VOLTAGE FORMS" sounds in your Microfreak

- MIDI Control Center installation:
  - Download the Arturia MIDI Control Center from this page: <https://www.arturia.com/products/Microfreak/resources>
  - Launch the file and follow the different steps to get it installed on your computer
  - Launch the MIDI Control Center
- Transferring the presets:
  - In the product list (top-left corner) select the Microfreak
  - Connect your Microfreak to your computer
  - In the upper part of the project View, click on the "Import" button then "Import New Project"
  - Select the file Microfreak\_Voltage Forms.mfprojz . This will create a new project named "VOLTAGE FORMS" (vertical list on the left)
  - Select the new project "VOLTAGE FORMS". This will display the related presets in the list aside.
  - You can then transfer those presets in the Microfreak memory by simple drag-and-drops of an individual preset, or by selecting multiple presets.
