Back To The 80's

Read Me

Here are the instructions to use the "Back To The 80's" presets for Arturia MicroFreak.

1 CONTENT OF THE ARCHIVE

- Readme.pdf : current text file.
- MicroFreak_Back_To_The_80s.mfprojz : MicroFreak project to transfer with the Arturia MIDI Control Center

2 HOW TO USE

2.1 Importing the "Back To The 80's" sounds in your MicroFreak

- MIDI Control Center installation:
 - Download the Arturia MIDI Control Center from this page: <https://www.arturia.com/products/microfreak/resources>
 - Launch the file and follow the different steps to get it installed on your computer
 - Launch the MIDI Control Center
- Transferring the presets:
 - In the product list (top-left corner) select the MicroFreak
 - Connect your MicroFreak to your computer
 - In the upper part of the project View, click on the "Import" button then "Import New Project"
 - Select the file MicroFreak_Back_To_The_80s.mfprojz. This will create a new project named "Back To The 80's" (vertical list on the left)
 - Select the new project "Back To The 80's". This will display the related presets in the list aside.
 - You can then transfer those presets in the MicroFreak memory by simple drag-and-drops of an individual preset, or the whole project.

⚠ Pay attention not to overwrite contents that you would like to keep ⚠
