Here are the instructions to use the "KraftBrute" presets for Arturia MatrixBrute.

## 1 CONTENT OF THE ARCHIVE

- Readme [.pdf]: current text file.
- KraftBrute [.mbprojz]: MatrixBrute project to transfer with the Arturia MIDI Control Center

## 2 HOW TO USE

### 2.1 Importing the "KraftBrute" sounds in your MatrixBrute

- MIDI Control Center installation:
  - Download the Arturia MIDI Control Center from this page: <https://www.arturia.com/products/matrixbrute/resources>
  - Launch the file and follow the different steps to get it installed on your computer
  - Launch the MIDI Control Center
- Transferring the presets:
  - In the product list (top-left corner) select the MatrixBrute
  - Connect your MatrixBrute to your computer
  - In the left part of the Matrix View, click on the "Import" button then "Import New Project"
  - Select the file KraftBrute.mbprojz. This will create a new project named "KraftBrute" (vertical list on the left)
  - Select the new project "KraftBrute". This will display the related presets in the matrix aside the list.
  - You can then transfer those presets in the MatrixBrute memory by simple drag-and-drops of an individual preset, a row (bank) or the whole project.
